

BULK HERBS & MORE

We make every effort to offer herbs that are grown locally, organically or are ethically wild-harvested. We select herbs based on quality, so our distributors are subject to change. All our herb prices are listed per ounce, updated quarterly to accommodate seasonal price fluctuations, and are subject to change. Unless otherwise noted, all our bulk items are cut and sifted whole herb.

It is important for your safety to consult an experienced herbalist, your health care provider, reputable books or knowledgeable friends about the appropriate use of any herb. The FDA prohibits the sale of some herbs for human consumption.

SYMBOL KEY

* Available at our State Street location only

OG Indicates an herb that is certified organic.

GWC Indicates an herb that was grown without chemicals.

WC Indicates an herb that was wildcrafted.

C&S Indicates an herb is cut and sifted
